

Slack Daily Planner Bot

What it does

Posts a daily planner message to Slack every weekday morning.

The message includes main focus, tasks, meetings, reminders, blockers, and end-of-day updates.

When it runs

Monday to Friday at 8 AM Pacific during PDT.

How people use it

Team members can reply to the Slack post with what they are working on, any blockers, meeting notes, reminders, and progress updates.

What is needed

- Slack workspace
- Slack Incoming Webhook URL
- GitHub repository
- GitHub Actions secret named SLACK_WEBHOOK_URL
